EN

The four holes under the seat are options for two different placements of it. The most common position is the one where you fasten the seat in the holes closest to the curved area of the seat, and some might prefer the other position which makes the seat placed further out from the back of the chair.

DE

Unter der Sitzfläche befinden sich vier Bohrungen, von denen Sie in diesem Schritt zwei benötigen. Die meisten Nutzer entscheiden sich für die beiden Bohrungen in der Nähe der abgerundeten Seite des Sitzes. Für zusätzlichen Platz zwischen Sitz und Rückenlehne wählen Sie einfach die beiden Bohrungen in der Nähe der geraden Seite.

IT

I quattro fori sotto il sedile servono per poterlo montare in due diverse posizioni. La posizione più utilizzata è quella con il sedile montato usando i fori più vicini alla parte stondata del sedile. Ma alcune persone possono preferire una postura con il sedile più lontano dallo schienale.

EN

Tighten all screws properly after assembly. The natural movement of the wood and your own movement when using the chair, will require occasional tightening of the screws. Please keep the Allan key.

DE

Bitte ziehen Sie alle Schrauben nach dem Zusammenbau fest an. Durch Bewegung und die natürlichen Eigenschaften von Holz müssen die Schrauben gelegentlich nachgezogen werden. Bewahren Sie daher bitte den Inbusschlüssel auf.

IT

Stringere bene tutte le viti dopo il montaggio. Il naturale movimento della sedia quando viene utilizzata potrebbe rendere necessaria una periodica registrazione delle viti. Vi suggeriamo quindi di custodire con cura la chiave.
